Topography

CLAYTON-LE-MOORS

Lancashire, N.E.

$53^{\circ} 46''$ to $53^{\circ} 48''$ latitude.

$2^{\circ} 22''$ to $2^{\circ} 24''$ longitude.

Enfield

Highest part of Township above Sea level, 540 feet.

Mean level, 470 feet.

Oakenshaw

Lowest part of Township above Sea level, 240 feet.

Mean level, 390 feet.

Landfall. South-Easterly to North-Westerly.

550 to 200 feet.

Climate

Exposed : Atmosphere damp.

Prevalent Winds : Westerly, South-Westerly.

Soil

Moorland, Clay.

Surrounding Hills : On the North the Pennine Range.

North-East : The Pendle Hills.

North-West : Minor Hills.

Annual Rainfall : Average, 50 inches.

Rivers

The Hyndburn, the chief recipient of the rainfall of the district.

Canals

Leeds and Liverpool Canal, dividing the Township into higher and lower portions, Enfield and Oakenshaw.

Industries

Brick-making, Soap-making, Domestic Machine making, Cotton Weaving, Lithographic and Letterpress Printing, Hydraulic Ram making, Chemicals and Colours, Paint and Varnish Manufacturing, Vitreous Glaze Enamelling, Electric Domestic Appliances and Emery Cloth.

Area	1039.922 acres.

HEALTH DEPARTMENT,
COUNCIL OFFICES,
CLAYTON-LE-MOORS.
September, 1953.

**To the Chairman and Members of the
URBAN DISTRICT COUNCIL OF CLAYTON-LE-MOORS**

MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have the honour to present the report on the health of the Urban District for 1952.

The number of deaths slightly exceeded the number of births, but the death rate is slightly lower than last year. The birth rate is somewhat lower than for the country as a whole, and the death rate rather higher.

Infectious disease notifications were low, but the number of cases of pulmonary tuberculosis is decidedly higher than in 1951. Study of the records of these cases does not show any special reason for this ; it must be remembered that in small figures fluctuations are exaggerated, but the figures and the circumstances of individual cases are closely watched.

The four infant deaths were all due to congenital causes and were not in the present state of knowledge preventible. This is, at present, a satisfactory record.

During the year there was a decided increase in house building, but against that must be set the number of new cases of overcrowding reported. Although a considerable amount of housing in the town is below modern standards, this is offset by the open country around the town, and its elevated position, favouring free circulation of air. The report shows a generally satisfactory state of public health.

The sudden death of Mr. J. H. Bridge, Senior Sanitary Inspector, in November, 1952, was a loss to the town. He was a quiet steady worker with a sound knowledge and interest in all public health matters, keenly interested in local history and a pleasant and conscientious colleague whom we all miss very much.

I thank you Mr. Chairman and Members, the Clerk and other officials for your support and interest throughout the year.

I have the honour to be,

Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

R. C. WEBSTER,

Medical Officer of Health.

GENERAL PROVISION OF HEALTH SERVICES IN THE AREA, 1952

Ambulance Facilities

These are provided by the Lancashire County Council.

Nursing

The Home Nursing Service is provided by the Lancashire County Council.

Domestic Help Service

The County Council provides this : the Home Helps are engaged on an hourly basis and are available for maternity cases and cases of illness.

Maternity and Child Welfare

This service is administered by the Lancashire County Council. Infant Welfare Clinics were continued weekly, Ante and Post-Natal Clinics are now held on alternate weeks. The help of the ladies on the voluntary committee at the Infant Welfare Clinic is again gratefully acknowledged.

School Medical Inspection

The school medical service is provided by the County Council. Medical Inspection was carried out by the Medical Officers of the County Council.

The School Clinics continued as usual at Rishton comprising Minor Ailments, Orthopaedic, Ophthalmic and Dental Clinics.

Immunisation Clinics were held regularly at the Welfare Centre.

Hospitals

No Hospitals or Registered Nursing Homes existed within the Urban District.

Health Education

The services outlined above are available to all and are, generally speaking, well used. Efforts are made to secure a wider use of the Health Services by the personal recommendation of the Medical Officer, Health Visitors, School Teachers and others. Posters are exhibited at the Town Hall, Welfare Centre, Clinics, and in the Schools.

SANITARY CIRCUMSTANCES OF THE AREA

Water Supply

The Accrington District Water Board undertake this service and make the necessary tests of the quality of the water. The supply was constant and sufficient as every house is served, no extension of piped supplies has been required. The conversion, as time goes on, of waste water to fresh water closets will, however, increase the water needs of the district.

Drainage and Sewage

This service is undertaken by the Clayton-le-Moors and Great Harwood Joint Sewerage Board, and extends to all premises save a few isolated farms. Periodical testing and flushing was carried out.

Scavenging is carried out by the Health Department of the Local Authority.

Further details regarding Sanitary circumstances, Housing and Inspection and Supervision of Food, are contained in the report of the Sanitary Inspector.

INFECTIOUS DISEASES

The following table shows the number of new cases of tuberculosis notified during the year 1952 and the number of deaths from the disease which occurred in the various age groups.

	NEW CASES				DEATHS			
	Respiratory		Non-Respiratory		Respiratory		Non-Respiratory

The Tuberculosis Service for the area was administered by the Regional Hospital Board and County Council in association, and one of their principal dispensaries is only a few yards outside the boundary of the Urban District.

This Dispensary is regularly open, with a full clerical and health visiting staff. One consultant and one other Tuberculosis Officer attend several times a week to see patients recommended for consultation by local practitioners, or cases found by the Medical Officers in course of routine work in schools, ante-natal or welfare clinics.

NOTIFIABLE DISEASES OTHER THAN TUBERCULOSIS

The table below shows the number of cases of infectious disease, other than tuberculosis during the year.

NOTIFIABLE DISEASES			TOTAL CASES ALL AGES	REMOVED TO HOSPITAL	DEATHS IN HOSPITAL	TOTAL DEATHS
Scarlet Fever	3	—	—	—
Diphtheria	—	—	—	—

SANITARY CIRCUMSTANCES, HOUSING, INSPECTIONS AND SUPERVISION OF FOOD

Sanitary Inspections

The number of premises visited during 1952 was 182.

From these visits, 287 nuisances and defects were noted and 243 were remedied.

16 statutory and 188 informal notices were issued.

Closet Accommodation

Number of houses using :—

Fresh Water Closets (connected to sewers) ...	763
Waste Water Closets (estimated)	1,540
Pail Closet System	5
Privy Midden System	3

Total number of inhabited houses ...	<u>2,311</u>
--------------------------------------	--------------

99 blocked drains, in connection with slop-water closets, were opened.

During the year, 24 waste water closets were converted to fresh water closets.

Ashpit Accommodation

Number of houses at which movable ashbins were substituted for fixed receptacles during year—Nil.

There are 2,460 moveable ashbins.

The tipping is controlled and is situated on the old printworks site at Oakenshaw.

Income :—Tipping charges £25 13s. 6d.

Cleansing, 1952

Ashpits emptied	7
Ashpails emptied	71,849
Cesspools, etc., emptied	1
Privy Pails	52
Motor loads of house refuse removed to tips ...	993
Motor loads of street sweepings removed to tips ...	7
Motor loads of gulley refuse removed to tips ...	50
Motor loads of clinkers, etc., used for top dressing ...	50
No. of loads tipped by private contractors on refuse tip	289
Houses fumigated	2
Blocked drains and W.C.'s opened	99
New houses certified as fit for human habitation ...	22

Details of Salvage Collected and Sold during year ended 31st December, 1952

	T.	C.	Q.	APPROX. VALUE		
				£	s.	d.

Scrap Metal	5	10	2	11	1	0
	74	13	2	397	11	8

Shops Act, 1950

233 shops were inspected under the above Act and no infringement of the Act was observed.

Eradication of Bedbugs

1 house was found to be infested.

Offensive Trades

The principal type of offensive trade in this district is soap boiling, and no action was required to be taken as these works are very satisfactory.

PREVENTION OF DAMAGE BY PESTS ACT, 1949

A part-time Rodent Operator is employed by the Authority and all complaints are promptly investigated and treatment carried out in accordance with the instructions issued by the Ministry of Agriculture and Fisheries. The sewers and refuse tip received treatment and the success of such treatment has a large bearing on the ultimate surface infestation by rats in premises, houses and industrial buildings in general. Some infestations are difficult to eradicate owing to the old types of sewers and drains serving the premises and the most one can do is to control the infestation until such time that financial circumstances will allow adequate facilities for dealing with and renewing such types of drainage systems.

Free treatment to dwelling-houses has been given by the Authority during the year and two treatments of sewers have been carried out with success.

The following table gives a summary of the work done throughout the past year.

No. of Premises Inspected	No. of Premises found Infested	No. of Treatments carried out
212	77	77

Sewer Treatment

Date	No. of Manholes Treated	Estimated Kill
3/3/1952	140	250
18/8/1952	160	300

HOUSING STATISTICS FOR THE YEAR, 1952

Total number of houses erected during the year	...	22
(i) By the Local Authority	20
(ii) By other Local Authorities	—
(iii) By other bodies or persons	2

Inspection of dwelling-houses during the year :—

(1) (a)	Total number of dwelling-houses inspected for housing defects (under Public Health or Housing Acts)	31
(b)	Number of inspections made for the purpose	105
(2) (a)	Number of dwelling-houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932	...	2
(b)	Number of inspections made for the purpose	6
(3)	Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	2

(4) Number of dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	29
Remedy of defects during the year without service of formal notices :—						
Number of dwelling-houses rendered fit in consequence of informal action by the local authority or their officers	13

Action under statutory powers during the year :—

(a) Proceedings under the Housing Acts, 1936 and 1949						
(1) Number of dwelling-houses in respect of which notices were served requiring repairs						7
(2) Number of dwelling-houses which were rendered fit after service of formal notices :—						
(a) By owners		1
(b) By local authority in default of owners						Nil
(b) Proceedings under Public Health Acts.						
(1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied		9
(2) Number of dwelling-houses in which defects were remedied after service of formal notices :—						
(a) By owners		2
(b) By local authority in default of owners						Nil
(c) Proceedings under sections 11 and 13 of the Housing Act, 1936.						
(1) Number of dwelling-houses in respect of which Demolition Orders were made	...					Nil
(2) Number of dwelling-houses demolished in pursuance of Demolition Orders				Nil

Housing Act 1936, Part IV Overcrowding

(a) (1) Number of dwellings overcrowded at end of year	39
(2) Number of families dwelling therein	...					51
(3) Number of persons dwelling therein	...					238

(b)	Number of new cases of overcrowding reported during the year	20
(c) (1)	Number of cases of overcrowding relieved during year	12
(2)	Number of persons concerned in such cases	68

Housing Act, 1949

(a) (1)	Number of Schemes submitted :—	
(a)	by private individuals	—
(b)	by the local authority	—
(2)	Number of dwelling-houses affected ...	—
(b) (1)	Number of Schemes approved :—	
(a)	of private individuals	—
(b)	of the local authority	—
(2)	Number of dwelling-houses affected ...	—
(3)	Number of additional separate dwellings provided	—

Sufficiency of Supply of Houses

The construction of a further 30 houses and 20 bungalows are contemplated.

Inspection and Supervision of Food

Meat and other foods :—The slaughtering of all animals has been undertaken outside the District.

The following foodstuffs were examined and condemned as unfit for human consumption :—

LIST OF CONDEMNED FOODSTUFFS FOR YEAR 1952

Nature of Food	<i>l.l.s. Ozs.</i>	
Irish Bacon	11	8
Boned Ham, Canned	13	8
Stewed Steaks	7	8
Stewed Mutton	1	0
Rabbit (Boneless)	1	0
Luncheon Meat	15	12
Luncheon Pork		12

Minced Beef Loaf	4	4
Jellied Pork	1	2
Jellied Veal	3	0
Irish Stew	2	0
Beef and Carrots	5	13
Braised Pork Liver		12
Macaroni in Cheese	2	0
Spaghetti in Meat	2	0
Brislings		3 $\frac{1}{4}$
Kipper (Snacks)		3 $\frac{3}{4}$
Pilchards	2	8
Salmon, Grade III	5	8

Milk (Special Designation) (Raw Milk) Regulations, 1949

Milk (Special Designation) (Pasteurised and Sterilized Milk) Regulations, 1949

No. of licences issued in respect of Wholesale Distributors :—

Supplementary Licences (Pasteurised)	3
„ „ (Sterilized)	3
„ „ (Tuberculin Tested)	2

No. of licences issued in respect of Retail Distributors :—

Pasteurised Milk	12
Sterilized Milk	20
Raw Milk	1

Milk Samples

Bacteriological and Biological examinations of milk samples are carried out by the Pathological Laboratory, Royal Infirmary, Blackburn.

The number of samples submitted during the year for the Methylene Blue Test was 12, all of which were satisfactory.

Ice Cream

Number of premises registered for the manufacture and sale of ice cream	25
Number of premises registered for the manufacture of ice cream. Hot Mix	4
Premises registered for the retail sale of ice cream	...				25

15 inspections were made and 12 samples were taken, all of which were satisfactory.

Preserved Foods

Number of premises registered for the sale of Preserved Foods	10
---------------------------------------------------------------	-----	-----	-----	-----	-----	----

Infectious Diseases

2 houses were disinfected during the year after infectious diseases.
2 books from the library were fumigated prior to re-circulation.

I have the honour to be,

Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

F. BAILEY,

Sanitary Inspector.
